

SMP Connector

PRODUCT DESCRIPTION

SMP connector is extremely small connector which can be used at range from DC~40GHz. SMP interface is push-on mating style connector which developed in response to high-density and higher frequency use for optical communication system, large capacity transmission system, and analyzing instruments.

- Compliant with MIL-STD-348A
- Operating frequency range DC~40GHz
- Push-on mating style
- Hermetic type and PCB type are available
- RoHS(2002/95/EC) Compliant
